OUR WASHINGTON LETTER

FROM OUR SPECIAL CORRESPONDENT

WASHINGTON D C Jan 30th 1867

No matter what the subject is which is under discussion in either House the President is sure to come in for a sharp criticism Even on the Tariff bill, our high protective friends discover that there is danger of a veto, because Mr Johnson sympathises with the South And there is something in the idea On the gold bill or any of the financial measures Mr McCulloch is opposed by some because he is a Johnson man It is alleged by some that he is really one of the most supple of Mr Johnson's tools I do not credit that story but it is a fact that he is a better financier than politician This tendency of debate in Congress shows what is uppermost in men's minds in Congress and among the people It is the sad condition of the country, because of the teaching of the President

If I were not afraid that the telegraph would anticipate me and render useless anything that I might say, or prove my predictions foolish before you get them, I would write at length upon the subject of impeachment though I have written you more than once on the same subject As it is I shall content myself with a slight sketch of the condition of the investigation as it now stands

The House Judiciary Committee which has the subject in charge has just commenced to examine witnesses Ashley of Ohio, I believe brings them on, and is a sort of prosecuting attorney in the case It is expected that drunkenness can be proven against the President and perhaps corruption Ashley's friends think they have good evidence that Patterson, his son in law, has received several thousand dollars from Smythe, the Collector of New York. I am skeptical on this point but I learn that the Committee on Public Expenditures which has for weeks been investigating the alleged frauds and corruption in that Custom House has come to the conclusion that Smythe is corrupt and should be removed [Patterson's complicity in this corruption has been proven —ED OREGONIAN] It is a singular fact that in connection with this investigation rumors are flying to the effect that the President's friends have been participants in Smythe's good fortune If it is so probably it can be proved It is also said that the President has violated law in the grossest manner in his dealing with the Southern railroad companies He has given rolling stock to rebels (so it is alleged) which the loyal States paid for, and his whole management of the railroads, which were first destroyed by the rebels themselves and then rebuilt by Northern soldiers, has been oblivious of law or Constitution *So it is alleged*

The President loses his temper when the subject of impeachment is raised The other night he asked a member "Well and what are you doing upon impeachment?" The reply was, "I really begin to think the Radicals are in earnest" The President seemed to be astounded and immediately burst into a furious passion, Said he, "D—n them! Let them try it on if they dare!" It is not just, however to hold him down *exactly* to what he threatens when angry for he is one of the most irritable of men, and says things when in temper that he wouldn't back up when cool But he is in a very ugly frame of mind—there is no doubt of that—and I believe, so far as he is concerned, would readily embark in another war sooner than submit to a removal from office though done in a Constitutional manner, if he felt at all certain of success But what is he to do? Grant would desert him in any such emergency, and so would all but rebels and a few of the worst of the Copperheads He would be whipped and in the end lose his head—and so would any of the men now around him who should have courage enough to follow his fortunes For one thing is certain If there is *another* civil war, and the rebels are a second time beaten, the nation will insist this time upon *punishment* A woful time will the South *then* have

The President has *pocketed* two or three bills lately, which is considered as a good sign by some of our optimist friends, as the bills become laws through this action of his I don't consider the matter as worth consideration It will be noticed that he vetoes *all the important bills* He can't afford to say no to *everything* presented to him

The inflationists and contractionists are having a great contest in both Houses The manufacturers cry aloud for more greenbacks—and strange to say, *the West* joins in it, with some exceptions It is claimed that there is stringency throughout the west, and that further inflation will give its business men better times But if a thousand millions of currency won't answer, how much will? The fact is, that the west would be still worse off if we had two thousand millions, instead of one, but it seems to be impossible to convince some of the western members of the fact They are apparently under the influence of the interested speculators, who care very little for the country at large so that they can make money in their speculations I have seen some of these speculators around the lobby of Congress who profess to be violent radicals, and yet so absorbed are they in their speculations that I really believe they would consent to have the rebels take possession of the country if they knew that it would take gold to 300

This private speculation puts the devil into a decent man a little quicker than any other process If McCulloch were only as radical as Mr Stanton is, he could carry his financial policy in Congress But he has shown such a facility for dirt eating—such a proclivity for Johnsonism that he is *personally* very unpopular But in spite of these facts the best men in both Houses stood by his policy. In the Senate Finance Committee such men as Fessenden Sherman and Williams I understand stood up for the Secretary's policy, *as a whole* In the Ways and Means Committee of the House, Morrill, its chairman, Garfield, Conkling and Wentworth stand by the Secretary Some of the ablest radicals favor *gradual* restoration On the other hand, some of the meanest of the Copperheads are slyly at work for inflation This is the meaning of Randall's Banking bill He is a Copperhead of the meanest kind

The House has been going into the blackguard business pretty steadily of late and at last it became so intolerable that a censure was voted upon Hunter, of New York, for saying that an assertion of Mr Ashley was "*a base lie*" Two days previous Cooper, of Tennessee twice told Kelly, of Pennsylvania that he "lied" The House was rapidly becoming more than a pot house in times of excited debate members called each other "liars" with impunity It was time that something should be done to stop the dirty business If a vote of censure won't answer the House should expel the offending member It should be a rule of the House to insist that a member so offending shall be made to take his seat and the *Speaker* shall be responsible for the enforcement of the law

The President is obstinate upon the Colorado and Nebraska bills I think one of them—Nebraska—will go in over his veto It would not if there was not a strong desire to pass every measure vetoed by him

There is a great deal of talk about the correspondence between Mr Seward and Mr Motley People at a distance cannot understand it The fact is Mr Seward is a broken down peevish old man He was angry at the story of some traveler that Mr Motley had condemned the President and the Secretary When he had ascertained the facts from the Minister why could he not have been magnanimous and confirmed him in the service? He is a miserable old man (Seward) and should not hold office another hour but the President will keep him where he is to the end of his term, if he lives so long

It is singular how Mr Stanton continues to hold on so well to his place The President seems to have entire confidence in him yet the Radicals also trust him Covode of Pennsylvania came away from an interview with him two or three days since reporting that "Stanton is all right" and that the Secretary felt so badly over the condition of the country and especially the conduct of the President that "he shed tears!" Yet the President says "Stanton is my friend" Covode is a staunch Radical but he sometimes exaggerates—in fact can't easily repeat a story without enlarging one half upon the solid facts There is no doubt where Mr Stanton's sympathies are *He is with Congress* But he is compelled to make terms with the President for the present

STEAMER DAY

Letter from Yaquina Bay

OYSTERVILLE, YAQUINA BAY March 3 1867

The great quantity of rain and snow we have had during January and February has kept the roads almost impassible. Even the indefatigable Stanton, who can drive a team where any other man can, has only been able to make three trips from the Bay to Corvallis, in the last two months and ten or twelve bushels of oysters make a good load for his four horse team. It is forty five miles from Corvallis to the head of tide water on the Yaquina In summer the stage makes it through in twelve hours Now it takes four days to go through and much of the time the streams have been so high that teams could not pass Stanton is our only means of getting the mails He brings the letters and papers, and each one pays him what he chooses for the service Last week a stray footman came in through the snow and rain from Corvallis, and happened to have a soiled and worn copy of the DAILY OREGONIAN of February 18th, in his pocket, which we read with the greatest avidity, and it passed around from one to another as long as there was a scrap of it left We have plenty of the best to eat and drink that can be had in 'Frisco, for we have direct communication with that city We luxuriate upon the best of fish, venison, clams, crabs and oysters, yet we go about hungering and thirsting for the newspapers.

Now, friend OREGONIAN, why can't you urge our Senators and Representatives to get us a mail route established? Be generous to a rival It will be a *long time* before we get big enough to hurt Portland It is sixty eight miles from the mouth of Yaquina Bay to Corvallis, by the usual route traveled, and the whole distance is settled up Much of the road passes through a rich and populous country, yet there is not a post-office, or a post route between the two points, although there are a thousand inhabitants on the route destitute of mail facilities We need a mail route, and *must have it* We have asked for it and we intend to keep asking, and get everybody else to ask, until we do get it We need it very much and we think we deserve it, so thing for and developing a wild, new country, for supplying the rest of mankind with the best of oysters, and, for carrying Benton county for the Union ticket last summer, thus securing a Union U S Senator last fall.

THE WEATHER

has been mild in temperature, but rough in storms. It has rained, snowed, blowed almost continuously through February, yet the ground has not been covered with snow more than twenty four hours at a time this winter But the excessively bad weather has been very hard on the cattle and horses of this district People having been here but a short time, were not provided with food for their stock So they had to gather their own food upon new, and not very abundant pastures, and of a different sort to what they had been accustomed to, hence, many have perished in the cold rain and snow storms. The bad weather has also been a great drawback upon the many

IMPROVEMENTS

that are everywhere being made in this new and prosperous locality Everybody is busy, clearing land, building fences and houses, planting orchards, and doing the thousands of things that all people of new countries have to do, to make themselves comfortable and happy They are organizing school districts, and preparing for schools God speed the schools, and give the nation a thorough purging with *education*, the great antidote to treason and modern Democracy

COAL

of a good quality has been discovered on the bay a short distance below Oysterville, but it has not been sufficiently prospected to show how abundant it is Yet it is believed it will be found in the greatest abundance

Seventeen years ago, an adventurous traveler, (a gentleman who now resides in Salem) in packing through this part of the county, found coal, at or near the head of tide water on "Depot Slough," (a tributary of Yaquina Bay) about ten miles from this place Wishing to mark the locality, he cut his name on the bark of a tree nearby He returned this winter after an absence of seventeen years, and, after some search, the identical coal and tree were found.

It is probable that many of your readers do not know whether oysters are caught on hooks or in traps, so in my next, I will tell them something about catching oysters. P W. G

QUEER FACTS AND RUMORS IN RELATION TO THE ARREST OF SURRATT —The Boston *Commonwealth* says Some inquiry having been made about the amount of money to be paid for the arrest of John H Surratt, it is worth while to call attention to the fact that the order offering a reward for his capture was revoked by the President some time late in the fall of 1866, two months at least after the State Department knew he had gone to Liverpool, and some weeks after instructions were sent to our Consul at that point to do nothing toward effecting his arrest. It may be mentioned in this connection that the Consul General of Canada was at Washington last week to consult with the Government about bringing evidence from there against Surratt when his trial takes place "Perley" telegraphs that there are intimations that if Surratt is willing to become a witness on the part of the Government he can substantiate what is now circumstantial evidence not only connecting Jeff. Davis with the conspiracy which culminated in the assassination of President Lincoln, but implicating another prominent individual once "a village alderman"

The Post Office business in St Louis has nearly doubled since 1861 During the last year $195,392 worth of stamps were sold at the office and during the same time 10,241,258 letters were sent to other offices.

SATURDAY MORNING, MARCH 9, 1867.

Now is the Time.

The telegraph reports the following:

The New York *World* (Democratic) counsels the immediate acceptance of the reconstruction law, and says that the South, profiting by the inability of the negroes to read Radical documents, should surround them with conservative influences, and improve on this state of things while it lasts.

Candor is an admirable quality. And the *World*, for once, gives a striking exhibition of candor. It appeals to its party friends to commence cultivating the good will of the negroes at once, and to get them in the way of voting the Democratic ticket before they learn to read; for, unless this is done, the Democracy must despair of ever obtaining the negro vote! If the negroes learn to read, the *World* is of opinion that they are sure to go with the "Radicals"; therefore the negro mind must be surrounded with "conservative influences" before it is too late! Democratic principles must be instilled into the negro mind before it is pre-occupied with learning of any sort. At present, the blacks are an ignorant class. Such classes are extremely likely to go to the Democratic party. But that party fears they will soon learn to read; hence its principal organ exhorts Democrats everywhere to bestir themselves, to pay court to the negroes, to engage their favor, to conciliate their affection, and to do all in their power to "improve the present state of things while it lasts," for it cannot last long!

But while it does last, "conservative influences" must be plied incessantly. Doubtless the *World* desires its friends to employ the same influences with the negroes which have long been used with such eminent success among the Five Points Democracy and John Morrissey's constituency. Instead of schools, which are always "Radical" in their tendencies, a multitude of pot-houses must be established to exert a "conservative" influence. Every cross-roads, like the "Corners," celebrated in Nasby's essays, must have its "Bascom's grocery." The negroes must be taught the "conservative" art of mobbing, shooting, and hanging Yankees, for the blacks themselves are no longer to be dealt with in this manner, either by the Southern chivalry or the Northern Democrats. That little ebullition of feeling which took place in New York city in July, 1863, when forty or fifty negroes were hanged, shot, or roasted alive by the "Conservative Democracy," will not be repeated. If other orphan asylums are to be destroyed, they will be those of the "Radicals," and not of the negroes. Care will be taken by the chivalry when their hilarity again becomes irrepressible, as it did at Memphis and New Orleans, not to play any of their pranks upon the colored population. The Democracy are hereafter to hold the negro—until he learns to read—as a man and brother!

Now it cannot be denied that many negroes, particularly the more ignorant ones, would make very good Democrats. Nor can it be doubted that the Democrats will heed the admonitions of their principal organ, and employ every possible art to secure the negro vote. That party never was so greatly in need of votes as it is now. It never did scruple to use any sort of means to obtain them, and never will. It has been a great objection with us to universal suffrage that it would give a still greater number of votes, thrown by ignorant and vicious persons, to the Democratic party. We should dislike to see Democrats hobnobbing with negroes for their votes; yet they will do it, and this spectacle will be witnessed wherever the negroes constitute a large share of the population. But the blacks, as a general rule, will not vote with their former oppressors. They have intelligence enough to know who are their real friends. Considerable numbers of them, however, will probably become Democrats, and remain so—as the *World* thinks—until they become able to read. Now, undoubtedly, is the time to profit by their ignorance and make as many as possible of them "Conservative Democrats." It is evident that the entire Democratic press, north and South, will soon begin to bid for the negro vote. That party will claim to be the exclusive friend and champion of the blacks, and will endeavor to practice the same demagogical arts upon them which it has always used with other classes of our population.

Foolish Advisers.

Certain journals take it upon themselves to decide that the laws enacted by the last Congress are unconstitutional and therefore void; that all laws which may be passed by the present Congress will be invalid also, and that no one is legally or morally bound to observe or obey them. Persons who talk in this way are not doing their party any service. If language of this sort should lead to resistance to the laws, the authors of the sedition and the party participating in it would speedily be taught the consequences of their criminal folly. If such inflammatory appeals do not lead to open resistance, they do at least put the people on their guard against the party making them. So that in any view of the case one who makes such declarations or gives such advice, could not do his party a greater disservice.

There are those also who urge the President to disregard the action of Congress, in case that body should decide to proceed with impeachment. These persons are not true friends of the President. Impeachment is a constitutional measure. It is a power which is lodged with Congress, and if that body, in pursuance of its undeniable right, proceeds to use it, the best thing the President can do will be to submit. For Congress will be sustained by the people, because in sustaining it they uphold the Constitution of their country. They who think to defy constitutional processes, may take a lesson from the fate that has lately befallen others who attempted a similar course.

All the laws which have been, or which may be enacted by Congress, will be enforced and obeyed, and they who talk of resistance will obey them as well as others. And if the President is impeached and convicted, he will be removed from office, and his constitutional successor will become President. Menaces uttered by him or his friends are much more likely to hasten impeachment than to prevent it.

LATE EASTERN NEWS.

Western Union Telegraph Co., [illegible]

NEW YORK, Feb. 25.—A letter from the Directors of the Western Union Telegraph Company says they resolved at a recent meeting to send a Commissioner to Russia to urge that Government to assume the construction of the Russo-American telegraph from the Amoor to the Russian p[illegible]. If Russia ref[illegible], it is probable that the line will be abandoned. The Atlantic Cable proving a success beyond the expectations of those who constructed it, but not being fully employed, which causes a reduction of its rates, is assigned as the reason for the abandonment of the enterprise. It is stated that the company have expended two and a half millions of dollars, and has property and funds worth a million and a half. The *Herald's* correspondence, dated at St. Petersburg, Feb. 1st, gives an account of Knox's journeyings throughout the [illegible] possessions, in which he was the recipient of the warmest hospitalities.

The Fenian Attack on Chester Castle.

NEW YORK, Feb. 25.—Files by the steamer [illegible] show that, by official parliamentary statements and police and military reports, the Fenian movements against Chester Castle was a very serious and alarming affair, undertaken after due deliberation, and carried to the verge of completion with rapidity and skill. An Irish-American officer, serving in the Fenian ranks, betrayed the secret to the authorities, and saved, to all probability, great trouble in England. The Chief of Police in Chester states that the Fenian Military Directory, consisting of fifty men, mainly from New York, hold regular sittings in the chief towns of the United Kingdom.

Polygamy Denounced in the House.

WASHINGTON, Feb. 25.—The House Judiciary Committee made a report to-day, denouncing polygamy as contrary to the spirit of the Christian religion and a relic of heathenism and barbarism, and subversive of the marriage relation in all nations where it is tolerated, and stigmatizing it as simply legalized prostitution. They say no greater outrage on the freedom of religious faith could be perpetrated than to require the people of any nation to sanction with approval of law a practice so deeply offensive. Alluding to the presentation of a recent memorial from the Utah Legislature, stating that no effort had been made to enforce the law, the Committee says the fact is humiliating. If it is in consequence of the neglect of the Federal Judges, they ought to be removed; but if the failure arises from other causes, it is the duty of the President to see that the law is executed.

Sumner, of Massachusetts, introduced a Joint Resolution declaring further guarantees needed in the Constitutions of the rebel States, in addition to Universal Suffrage. The resolution requires that the existing governments be vacated and their officers take no part in calling Conventions; that Constitutional Governments must supersede the present illegal Governments; that none but loyal persons shall take part in the formation of new State Governments; that Public Schools must be established, open to all; that homesteads must be secured to the freedmen. The consideration of these resolutions were objected to by Johnson, of Maryland, and they went over. After an executive session the Senate adjourned.

In the House, the Speaker presented a letter from the Clerk of the House transmitting a communication from the Secretary of State, acknowledging the receipt of an act to provide for the more efficient government of the rebel States and announcing his purpose to promulgate it. Laid on the table. Also a communication from John D. Hoxon announcing that he contested the seat of William A. Pile as representative of the first Congressional District of Mo. Also a communication from the late Commissioner of Public Buildings, in reference to the appropriation in the deficiency bill for completing the repairs and furnishing the President's house.

Pomeroy of Kansas, on question of privilege offered a concurrent resolution, that when the two houses adjourn on Monday next, they adjourn to meet on Wednesday the 8th of May next. Farnsworth of Ill., inquired whether it was necessary to include the Senate. Pomeroy did not suppose it was and then modified his resolution so as to apply only to the House.

Holmes of Ind., moved to lay the resolution on the table, the vote was taken and resulted ayes 14, noes 101. The resolution was then adopted without a discussion. Adjourned.

The liquidation of entries is to be suspended until the appraiser is able to report according to its provisions. The appraiser is also to send samples to the treasury department with the name of the importer, the classification and the rate of duty in his opinion chargeable. The department decides that the act does not apply to goods in bond. The law takes effect from the 2d of March.

The law relating to town sites passed by Congress, authorizes the corporate authorities or county judges to enter the town sites at $1 25 per acre for the benefit of the inhabitants who, in such case, can decide for themselves what the size of the lots are to be.

Police stations at Killmallock were attacked by 200 Fenians, who were repulsed with three slain and fourteen prisoners. The police barracks at Donerail, near Belfast, was burned. The majority of union, bank and police messengers were shot. The Fenians have plenty of rations. It will be noticed the disaffection is wide spread.

Irish Affairs.

NEW YORK, March 7.—The correspondence of the *Tribune* from Dublin, under date of 23d ult., anticipates a present uprising and says the Fenian organization claim to have 5000 sworn men in the County Kerry. Messages from O'Connor have been received by the Brotherhood at Dublin and supplies have been sent to Killarney, notwithstanding extraordinary vigilance of the police. Soldiers are watching roads and passes with spy-glasses. The favor of peasantry prevents the capture of parties there employed. The populace are not likely to cooperate openly, though they are deeply disaffected and hostile to the government. The Fenian organization is too attenuated to hold their ground anywhere for a day in the face of the troops. The failure of Stephens to keep his word has paralyzed the organization in Dublin, and during the last two weeks, 150 persons have been arrested in Dublin alone, who came across in trading vessels and steamers from Holyhead and Liverpool.

Lord Naas, Secretary of Ireland, in a speech in Parliament on the 21st ult., denied any great amount of sympathy with Fenians except among the rural population. Every Catholic clergyman has exercised all his influence against it.

Dr. Moriarty, Bishop of Kerry, preached near Killarney and said, eternity is not long enough nor hell hot enough for punishment of Fenian leaders.

It is understood that the entire garrisons of counties Cork, Kerry and Limerick, consist of only 3,000 men.

The *Herald* says: A Fenian messenger arrived on Wednesday with dispatches from O'Connor's headquarters. He gives a narration of the uprising in Kerry. By the same steamer two Fenians who participated in the affair at Chester Castle, arrived.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, March 8.—Wells, Fargo & Co. announce their appointment as the agents of the French company which has chartered the ship *Great Eastern*. The vessel has been thoroughly refitted, provided with new boilers and refurnished in all departments. She will only carry one class of passengers, and has accommodation for 2,000. With her seven saloons she can dine 1,500 of them at one time. It is expected by the commander, Sir James Anderson, that the ship will make the passage in nine days. The first trip from New York is fixed for April 9; from Brest April 25th. The agents are prepared to secure berths by telegraph, and the rate of passage money decides the part of the ship in which the berth will be allotted.

The Pacific Mail Steamship *Sacramento* will sail for Panama at eleven o'clock to-morrow morning.

J. C. Carter, U. S. N., has been appointed lighthouse inspector of the 12th lighthouse district, comprising the coasts of California, Oregon, and Washington Territory. He is one of the oldest officers in the service, having been in the navy over forty years.

The telegraph reports the price of gold in New York yesterday noon at 133½. Sterling was firmer at 108¼. Legal tenders are in better favor at 74½ buying and 75 selling. Currency drafts on Atlantic cities are quoted at 3½c premium on gold coin drafts 2 per cent.; telegraphic transfers 2½ per cent. Owing to the late impassable condition of the roads in the interior there is very little bullion offering, and the shipment will necessarily be light. Gold bars are nominally 870; silver do ½ per cent. premium.

Flour—A portion of 1,000 bbls extra shipped to New York per *Constitution* of January 30th, was sold in that market at $14 per 196 lbs. Our market is without special interest. Superfine bf sks per 196 lbs, $5 00@5 25; qr sks $5 25@5 50; extra bf sks $5 75@6 00, qr sks $6 00 @6 25.

Wheat—4,000 sks superfine sold at $1 50; 800 sks coast at $1 55; 170 sks medium milling $1 60; 500 sks very choice coast $1 65; 1,600 sks choice bay $1 70 per 100 lbs.

Barley—Sale of 500 sks brewing at 85 cents per 100 lbs.

Oats—Continue dull, and prices are nominal at $1 05@1 20 per 100 lbs.

The sailing day of the *Continental*, for Portland, has been postponed to Tuesday, March 12th.

FROM THE NORTH.

VICTORIA, March 7.—John J. Cochrane, ex-Member of Assembly, died suddenly. Cause unknown.

The American bark *Scotland*, Captain Hoeg, from San Francisco on the 9th of February, arrived this morning with the captain dead on board. The death occurred when off this port, yesterday.

The ship *Silas Greenman*, from San Francisco for Nanaimo, has arrived and will be towed up to the coal mines.

VICTORIA, March 8.—The bark *Washington* continues on shore at Dungeness, and appears to be in a helpless situation. The crew are engaged in dismantling the bark and conveying everything moveable ashore, with a view to her final abandonment.

The ship *Mary Melcom* continues on Rocky Point. It is believed that this vessel may be saved comparatively uninjured, should the weather continue calm.

It is proposed to hold a public meeting in a few days to consider the propriety of petitioning for the admission of this Colony into the British North American Confederation.

The U. S. Revenue Cutter *Lincoln*, with General Steele and staff, arrived here yesterday from Puget Sound.

NEW TO-DAY.

LOUIS A. GARNETT.......... President and Manager.

JOHN HEWSTON, JR.......Chemist and Superintendent.

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business.

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion.

Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS.

One-eighth of one per cent. (heretofore a quarter) for all amounts over $1,600, and two dollars for any smaller sum. Returns made in twenty-four hours.

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS.

Two dollars for the gold contained, up to $1,600, and one-eighth of one per cent, for all amounts over that sum, and one per cent. on the silver contained. Returns made in twenty-four hours.

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS.

On bullion under 300 parts gold, 2 cents per ounce.

On bullion from 300½@600 parts gold, 4 cents per ounce.

On bullion from 600½@750 parts gold, 6 cents per ounce.

On bullion from 750½@940½ parts gold, 8 cents per ounce.

Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars.

FOR COINING GOLD.

This charge will be the same as at the Mint—a half of one per cent.—and which is paid by us to that institution. But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

RETURNS IN COIN IN FORTY-EIGHT HOURS.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint.

Gold bars of other Assayers, in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co's Express.

CHARGES AT U. S. BRANCH MINT.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that institution:

For refining bullion under 300 parts gold, 3 cents per ounce.

For refining bullion from 300½@600 parts gold, 5 cents per ounce.

For refining bullion from 600½@750 parts gold, 7 cents per ounce.

For refining bullion from 750½@830 parts gold, 11 cents per ounce.

For refining bullion from 830½@940½ parts gold, 11 cents per ounce.

The charge for coinage is half of one per cent., and the charge for making fine silver bars, the same.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ⅛ of one per cent.—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage:

850 par to equal Mint return, at refining charge of 11 cents.

845 par to equal Mint return, at refining charge of 14 cents.

865 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents. mh1d2p3m

OREGON AND CALIFORNIA APPLES.—It is very seldom that we see an acknowledgement in the California papers, of the superiority of an Oregon production. Whenever we do find such an acknowledgement, we know that it has been wrung out by a fact so stubborn that no amount of assumption could conquer or distort it. We know it has been common, for years, for California retail dealers in fruit to advertise "Oregon apples" as a "catch" for custom; but the wholesale dealers and the public prints rarely mention them except disparagingly. Oregon winter apples, however, have always maintained a superior price in the markets and the recent operations have evoked a comment even from the California press. The San Francisco Times of a recent date has an article on the fruit crop of California, in which the following, concerning Oregon apples, occurs:

"During the past year the total production of the fruit amounted to little short of $400,000, of which San Francisco's consumption reached $12,000. Besides this, there was considerable importation from Oregon, adding to the consumption of this city nearly $50,000. The present imports, however, from Oregon, show a great falling off when compared to former years, on account of not only the increase in the quantity, but improvement in the quality of the California article. Last season Oregon sent us a little over $100,000. This season the total imports will not reach over $75,000, but $45,500 having been up to the present, received from the 10th of September, when the Oregon season commenced. It must be recollected in this connection, that the value here given of the imports from Oregon does not represent a corresponding quantity of California apples, as the latter do not average over $1 25 per box of fifty pounds, while the former reach $1 75. The higher price is not due exactly to any marked superiority in the Oregon apple, but rather to the fact that as the California apple comes into the market about the first of May, the article, just at the time the Oregon fruit begins to arrive, is exceedingly scarce; and hence the apples from Oregon, which do not glut the San Francisco market like those from the interior during the summer, bring a higher price. There is, besides, another fact which tends toward this result—the Oregon apple is better colored, and keeps longer than that grown in California."

While the Times admits that Oregon apples roll at an average of 50 cents higher than the California product, true to the universal California instinct, it avers that this is "not due exactly to any marked superiority." If, as the Times says further on, "the Oregon apple is better colored and keeps longer," and if, as everybody knows, it is also better flavored, we rather think there is a "marked superiority," and that the Times or any other man may just as well acknowledge the corn, without reservation.

VANCOUVER ITEMS.—From the Register we clip the following items: The Vancouver Hibernian Benevolent Society contemplate giving a grand ball in Vancouver on St. Patrick's day, the 17th inst.....A Court Martial is now in session at this post for the trial of military prisoners. A large number of charges against soldiers for various offenses are to be disposed of.....The Clarke county [illegible] have appointed March 30th for primary meetings and the 6th of April as the time for holding the County Convention.....The recruits who recently arrived here were paid on last Tuesday, and consequently much disorder and drunkenness prevailed for a few days subsequent thereto.....On the 16th inst. (next Saturday) a horse race for $300 a side will come off on the Fourth Plain track, in this county, between M. Shea's celebrated mare and a fast horse belonging to Charles Bird.....Annie Smith and Carrie and Hattie Stewart, three women of bad repute, were lodged in jail the other night by Marshal Brady for [illegible] conduct and disturbing the peace. They were fined $10 and costs by the Recorder and admonished to leave the town.....A Hook and Ladder Co. is being formed in this town. They will probably complete their organization during the coming week. They have made a [illegible] for the purchase of the truck formerly belonging to Vigilance H. & L. Co., No. 1, of Portland.....We are glad to be able to record that a corporation has been formed for the purpose of building a woolen factory on Salmon creek, in this county. The articles of incorporation will be filed in a few days. The largest portion of the stock has already been subscribed, and the project may be considered as having become a fixed certainty.....On Tuesday night last at 11 o'clock, a row occurred on Main street between certain soldiers [illegible] at the post, wherein a soldier named Lawler, of [illegible] 1st Cavalry, received in his breast and side several stabs with a knife, which will in all probability result fatally. The wounded man is now in the hospital undergoing medical treatment. A soldier [illegible] in the 14th Infantry is charged with inflicting the [illegible]. No arrests have been made yet, but the case will probably undergo a judicial investigation.

CHARITY.—It is known that there is a number of families in this city who are in circumstances of poverty and distress, and utterly unable to provide for themselves the necessaries of life, not to speak of the comforts of life. [illegible] some persons who had learned the [illegible] of some of these families, circulated a subscription list to raise money in small sums for their relief. The fact of their destitution was attested by some [illegible], so there can be no fear that [illegible] thus donated will be applied to unworthy objects. The Tanner Troupe, as we learn, has, with commendable [illegible], offered to give a "benefit" to relieve the wants of these destitute persons. Some of our citizens ought to take hold of this matter and use their efforts and their influence to make the benevolent endeavor of the company successful. Will they do it? It is [illegible] that in many cases in the city, charity is [illegible], and, in a community like this we are sure the [illegible] of the poor will not be looked upon apathetically. This is an urgent call for an effort of some sort, and we [illegible] that the appeal of those in distress will not be heard in vain.

INEBRIATE ASYLUM.—A private Asylum for the [illegible] has been established near San Francisco. The [illegible] is at [illegible] Park, a short distance from the [illegible] Station. There are large and elegantly [illegible] buildings which are supplied with everything [illegible] the treatment of this special malady. A private [illegible] for the insane has long been wanted on this coast; this will be hailed as a blessing by those whose means will enable them to obtain for their afflicted friends all the [illegible] attention and relief that kindness and skill can [illegible].

OREGON CITY OIL COMPANY.—The incorporators in the Oregon City Oil Company are Messrs. F. Barclay, George [illegible], Wm. Barlow, John H. Moore, George Marshall, [illegible] and D. M. McKenney. The capital stock is [illegible], in shares of $100. Mr. Stevens is the [illegible] to open books and receive subscriptions to the stock. Arrangements have been made to purchase 1,300 [illegible] of flax seed for distribution among farmers [illegible] this year. We learn the foregoing facts from the [illegible].

[illegible].—A party of gay and frail young [illegible] were out larking, in a carriage on Thursday evening. Driving up to the stable where they had procured their [illegible], they suddenly found another turn-out, as the result of an attempted technical flourish by the frail driver. The jolly party at once discovered themselves in the mud and one of them got out with a face more thickly and darkly painted than his wont. The carriage was, [illegible] worsted.

CIRCUIT COURT—SHATTUCK, JUDGE.—The proceedings on Friday were as follows:

[illegible] vs. John Strimback; action on promissory note; [illegible] by default for $12[illegible] 95, coin.

[illegible] Central Military Road Company vs. Chas. [illegible]; [illegible] on verdict for $1250; stay of execution [illegible] days.

[illegible] Traisor, indicted for selling spirituous [illegible]; set for trial to-day.

[illegible] COURT.—The case of the City vs. John [illegible] (on the docket since Feb. 21st,) charge, carrying a concealed weapon, was tried in the Recorder's Court [illegible] before a jury, consisting of Levi Knott, Joseph [illegible], C. Gardner, Charles Goldstein, John [illegible]. After being out some time the jury were unable to agree and were discharged. Four [illegible] and two for acquittal. The case will [illegible] to-day.

[illegible]—We learn that a recent order has been issued from the War Department for the muster out of his [illegible] rank of Major-General Steele. His rank in the regular army is that of Colonel of the 20th Infantry. Until further orders, however, he will remain [illegible] of this Department.

[illegible] TO-NIGHT.—The Tanner troupe offer a splendid bill for to-night. Negro eccentricities by Graham, [illegible] O'Neil, etc., two or three beautiful songs by Miss [illegible], and a splendid afterpiece entitled "The Fenian [illegible]." Miss Selwood will sing among other [illegible]. Go and see them.

[illegible]—The Alert brought down yesterday 142 tons flour and 54 tons apples. Almost every available [illegible] room was occupied. The whole cargo was [illegible] on board the Ajax, the Alert going alongside for that purpose.

BENEFIT TO MR. O'NEIL.—The Tanner troupe propose to give a benefit to Mr. J. H. O'Neil on Monday night. The [illegible] is popular with his audiences and will doubtless draw a good house.

[illegible].—Last evening the following officers were elected for the ensuing term: President, J. F. Mc[illegible]; Vice President, R. A. Hendll; Secretary, M. P. [illegible]; Treasurer, [illegible] Moreland.

RAFFLE.—A raffle for some splendid ear-rings will take place at Oro Fino Saloon this evening, at eight o'clock. There are [illegible] yet to be taken.

LECTURE.—The Fourth Lecture of the "Citizens Course" will be delivered on Tuesday evening next. Dr. Watkins will be the lecturer of the evening.

Don't fail to procure Mrs. Winslow's Soothing Syrup for children teething. It has been used for thirty years with never-failing safety and success by millions of mothers for their children. COUNCIL PROCEEDINGS.—The Council met on Friday evening, His Honor the Mayor in the Chair. Present, Messrs. Carson, Fechheimer, Lowndsdale, McCraken, O'Connor, Zeiber.

The minutes of last meeting were read, corrected and approved.

MESSAGES FROM THE MAYOR.

The following Message was received from the Mayor:

To the Honorable Common Council of the City of Portland—GENTLEMEN: I herewith return an ordinance, entitled "An Ordinance authorizing the appointment of Deputy Marshals," with my reasons for not approving the same. The ordinance authorizes the Marshal to appoint and keep in the service of the city Deputy Marshals, and fixing their salary at $100 per month. I cannot approve this ordinance for the following reasons:

1st. The ordinance violates the express conditions of the City Charter. Section 59 of the Charter provides for the appointment of Deputy Marshals. It is as follows, to-wit: "The Marshal may, with the approval of the Mayor, appoint one or more Deputies, who shall possess the same powers as the Marshal." The Charter makes the approval of the Mayor necessary to the appointment of Deputy Marshals; the ordinance attempts to dispense with the necessity of the Mayor's approval; the conflict between the ordinance and the charter is too evident to need argument.

2d. Under this ordinance the Marshal may at his pleasure appoint any number of Deputies, each of whom must be paid $100 per month, thus placing the city treasury at the mercy of the Marshal and his Deputies.

3d. The Marshal has now two Deputies, each paid $100 per month by the city. In my judgment this is an unnecessary expenditure of public money, and should not longer be continued.

If the legitimate business and fees of the Marshal's office are not a sufficient remuneration for the services of the Marshal and his Deputies, let the Marshal dispense with his Deputies, and discharge the duties of the office himself.

If a city police is needed the City Council can establish a day and night watch, or either of them, as provided in Subdivision 12 of Sec. 38 of the Charter. Deputy Marshal's receive pay at the rate of $100 per month, and they or the Marshal receive the fees for their services rendered as such Deputies in addition thereto. If a police is established by law the city will only be called on to pay once for services rendered.

For these reasons I return the ordinance not approved.

Very resp'ly, yours, THOMAS J. HOLMES,
PORTLAND, OGN., Feb. 28th, 1867. Mayor.

The question being taken on the passage of the Ordinance, notwithstanding the veto, the vote resulted as follows:

Yeas—None.

Nays—Messrs. Carson, Fechheimer, Hallock, Lowndsdale, McCraken, O'Connor, and Zeiber—7.

So the ordinance was lost.

A Message from the Mayor vetoing the ordinance making appropriations for 1867, was read as follows:

To the Honorable Common Council of the City of Portland—GENTLEMEN: I herewith return "An Ordinance making appropriations for the ordinary expenses of the city government for the fiscal year commencing January 1st, 1867," with my reasons for not approving the same:

1st. Some of the appropriations are unnecessary, and a waste of the public money; to-wit: $2,400 is appropriated for the pay of two Deputy Marshals at $100 per month each. The duties of the Marshal are defined, and the payment for his services are provided for. His Deputies have the same powers and rights as the Marshal, and their services should be paid in the same manner, to-wit: by fees for the services that they may perform for the city. I do not think that it is just to the tax payers of the city to give the Marshal fees for his services, and then pay two men one hundred ($100) dollars per month each to perform the work for which the Marshal receives the pay in fees of the city. If a city police is necessary the Charter provides for it. The police will be paid so much for their services and that will be the end of paying—they will not be paid so much for their time and they or the Marshal receive fees for all services rendered in addition thereto.

The appropriation of $1,000 for iron lamp posts is unnecessary, as but few street lamps will be needed or used until the Gas Company extend their street mains.

2d. Some appropriations are larger than necessary, namely—$1,327 50 for Surveyor and Assistants, $2,000 for cisterns, etc. [See specification.] These appropriations are larger than necessary. Extravagant and unnecessary appropriations create the necessity for high rate of taxation. Taxation has eaten out the vitals of our prosperity. Some regard must be had to the present depressed condition of business, and a rigid economy must be pursued in the administration of the city government. For these reasons I return this ordinance without my approval.

Very respectfully yours,
THOMAS J. HOLMES, Mayor.
PORTLAND, February 23, 1867.

The question being taken on the passage of the ordinance notwithstanding the veto, the vote was—

Ayes—Messrs. Carson, Fechheimer, Lowndsdale and O'Connor—4.

Nays—Messrs. Hallock, McCraken and Zeiber—3.

The ordinance not receiving a majority of the Council, was lost.

A message from the Mayor vetoing the ordinance levying the taxes for the year 1867, was read as follows:

To the Honorable Common Council of the City of Portland—GENTLEMEN: Herewith I return an Ordinance entitled "An Ordinance levying sundry taxes for the year 1867."

The first section imposes a tax of four mills for general municipal purposes. Section 2 imposes a special tax of one mill for the improvement of the Willamette river.

The general and special tax by this Ordinance levied amounts to one-half of one per cent. on all property liable to taxation in the city, and will realize the sum of over twenty thousand ($20,000) dollars.

The amounts in and to be received in the City Treasury during the year 1867 will be as follows:

From Fines	$ 500 00
" Licenses	15,000 00
Unexpended Balances in the Treasury	3,500 00
Proposed Tax (of five mills)	20,000 00
	$39,000 00

This sum of $39,000 is much larger than there is any necessity for to meet all the ordinary, as well as extraordinary demands on the Treasury during the year 1867.

First, because the ordinary expenses for the fiscal year are limited to the following items, as reported by special committee, to-wit:

Salary of Auditor and Clerk	$1,500 00
" " Treasurer	1,000 00
" " City Attorney	562 50
" " Street Commissioner	1,200 00
" " Chief Engineer	500 00
" " Surveyor and Assistants	1,327 50
" " Assessor	350 00
Fees due Recorder and Marshal	606 77
Board of prisoners	450 00
Gas for street lamps	4,000 00
Water for cisterns and public buildings	800 00
Expenses of Council Room	1,350 00
Fees of Marshal for attendance on Council	150 00
Stationery and printing	800 00
Expenses of Fire Department	2,500 00
Cisterns, hydrants and repairs of cistern tops	2,000 00
Street improvements and repairs opposite public property	1,300 00
Lamp posts	1,000 00
Expenses of elections	50 00
For payment of interest due on city bonds	2,400 00
Setting monuments	50 00
Resetting trees in Plaza	50 00
For new steam fire engine for Protection Engine Company No. 4	5,000 00
Total	$25,806 77

Some of these items of expense may with much propriety, and without injustice to any one, be reduced in the aggregate at least $3,000, which, if done without further delay, would limit the ordinary expenses for the fiscal year to......$25,806 77

This reduction of the estimated expenses being made, the following sources of revenue will be found ample to meet them and leave a large surplus in the treasury for any contingency that may arise, to-wit:

Three mill tax	$12,000 00
For licenses	15,000 00
Unexpended balance in treasury Dec. 31, 1866	3,500 00
Fines	500 00
Total	$31,000 00
Expenses deducted	25,806 77
Surplus	$5,193 23

With proper economy a tax of three mills with the sources above enumerated, will realize sufficient to meet and promptly discharge all demands, both ordinary and extraordinary, of four thousand dollars for the improvement of the Willamette River,—and the Tax payers of the City be relieved of the payment of ten thousand dollars ($10,000) which sum might be wasted in useless appropriations if needlessly paid into the Treasury.

For these reasons I return the Ordinance without approval.

Respectfully yours,
THOS. J. HOLMES, Mayor.
Portland, Oregon, March 2, 1867.

The question being taken on the passage of the ordinance notwithstanding the veto, the vote resulted—

Ayes—Messrs. Carson, Lowndsdale, McCraken, O'Connor—4.

Nays—Messrs. Fechheimer, Hallock and Zeiber.

So the ordinance was declared lost.

PETITIONS, REMONSTRANCES AND COMMUNICATIONS.

A remonstrance was received from property holders on Front street, against the proposed improvement of Front street, between Harrison and the line of Caruther's land claim.

Mr. Lowndsdale moved that the remonstrance be filed and that the proposed improvement be abandoned, which prevailed.

A petition from taxpayers was received asking for a change of grades on Front street south of Harrison. Referred to the Committee on Streets and Public Property.

A petition was received for the erection of lamp post at the N. W. corner of A and Front street. Referred to the Committee on Streets and Public Property.

Mr. Rosenheim appeared and took his seat.

A petition was received from Arthur Mallon for a lease of the foot of Alder street for the purpose of using it as a landing. Referred to the Committee on Landings and Wharves.

Thos. J. Brennan and twenty others preferred a petition for the erection of a bridge at the junction of Tanner and F streets. Referred to the Committee on Streets and Public Property.

A petition was received from several taxpayers for the construction of a side walk on the west side of Third street from block 52 to Taylor street. Referred to the Committee on Streets and Public Property.

Joseph Levi petitioned for the privilege of moving through the streets a small building, from First near Salmon, to Third near Pine. Granted.

A communication was received from Street Commissioner Davis in relation to the unsafe condition of the cistern top at the junction of Washington and First streets. Referred to the Committee on Fire and Water.

Messrs. Hallock & McMillen petitioned for the use of a portion of Oak street for building purposes. Granted.

REPORTS FROM COMMITTEES.

The Committee on Streets and Public Property reported that S. Simmons & Co. had completed their contract for grading and macadamizing a portion of B street, and recommending the payment of the contract price, $1,200. The report was adopted and a warrant ordered drawn for the amount.

The same Committee, to whom was referred the claim of J. H. Hayden for filling 3d street on the west side of Market block, reported that they find that Hayden has filled in 4[illegible] cubic yards of earth, and recommending that he be paid for it at the rate of 30 cents, per cubic yard. The report was adopted and a warrant ordered drawn for the amount. Yeas—Messrs. Carson, Fechheimer, Lowndsdale, O'Connor, Rosenheim and Zeiber. Nays—Messrs. Hallock and McCraken.

The same Committee reported in favor of payment to S. Simmons & Co. of contract price, $1,300 for grading and macadamizing a portion of B street. Report adopted.

Mr. Carson was excused from further attendance this evening.

The above named Committee reported that Chas. Stewart had completed sidewalks on the west side of block 122 and recommend payment of contract price, $179 20. Report adopted and warrant ordered drawn.

CLAIMS AGAINST THE CITY.

On motion of Mr. Zeiber, there being no appropriations to pay claims, a batch of bills were laid over till a future meeting.

READING OF ORDINANCES.

An ordinance was introduced and read first and second time, authorizing the Committee on Ways and Means to contract with the Daily Herald to do the city printing, and prescribing the schedule of prices.

An ordinance levying taxes for 1867, was read first and second times.

On motion of Mr. Zeiber, the rules were suspended, the ordinance read a third time and passed by the following vote:

Yeas—All present.

Nays—None.

[The ordinance levies 3½ mills for general purposes and one mill to pay indebtedness etc.]

An ordinance making appropriations for the year 1867, was read first and second times; the rules were suspended and the ordinance read a third time and passed by the following vote:

Yeas—Messrs. Fechheimer, Lowndsdale, McCraken, O'Connor and Rosenheim—5.

Nays—Messrs. Hallock and Zeiber—2.

Mr. Fechheimer moved to suspend the rules and read the ordinance authorizing contract with the Daily Herald to do the city printing, a third time now.

Mr. Lowndsdale objected, so the rules were not suspended.

The ordinance to establish grades of streets in Couch's addition west of North Eleventh street, was read the third time.

Pending the vote on its passage—

Mr. McCraken offered a resolution authorizing and directing the Auditor to offer a bid on behalf of the city, to improve the Willamette river channel at Swan Island, as advertised by Col. Williamson. The bid to be for not less than [illegible] dollars in currency or [illegible] dollars in coin.

After some filibustering, the blanks in the resolution were filled, respectively with $14,500 and $10,750, and the resolution was adopted.

The consideration of the ordinance fixing grades of streets in Couch's addition was then resumed, when on motion, further consideration was postponed till next week.

The Council adjourned.

OFFICE AND RESIDENCE removed to the South-west corner of FRONT and YAMHILL Streets, opposite E. J. Northrup's Hardware store.

Appreciating the most Liberal Patronage by my friends and the public generally, during my residence in this city, I hope and take pleasure by diligent attention and Scientific Treatment to see the same continued as heretofore.

N. B.—To strangers I would say, that a constantly increasing Dental Practice for the last 8 years in this city, will be a sufficient guarantee for them to receive a First-Class and Finished Piece of Work. Numerous testimonials to the same can be given at the Office.

Are you aware that the premonitories of Consumption are Coughs, Colds, Bronchitis, Pains in the side and chest, difficulties of breathing, &c. If you permit these symptoms to run on tubercles will be the result, and end in Consumption. Now if you want to cure these diseases use ALLEN'S LUNG BALSAM without delay. Consumptives should never give up and think there is no hope until you have tried ALLEN'S LUNG BALSAM. It has cured many cases that physicians pronounced incurable. Sold by the dealers in family medicine generally. f16d1m

PERRY DAVIS' PAIN-KILLER is really a valuable medicament, and unlike most of the patented articles of the day, is used by many physicians. It is particularly desirable in locations where physicians are not near, and in families will often save the necessity of sending out at midnight for a doctor. A bottle should be kept in every house.—Boston Traveler. fe18dawlm

G. VENARD,
CHARTRES COFFEE!
Manufactory Established in June, 1851.
STEAM POWER, NOS. 625 AND 627 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts. The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeits or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.

New Year Abuses in New York.

Everybody knows that New Year's Day in New York is devoted by the gentlemen in making calls upon the ladies of their acquaintance. The custom is in itself a pleasant one, but so many abuses have crept in that there seems to be danger that it would presently become "more honored in the breach." The New York *Herald*, in its account of the festival, describes one of the annoyances to which many unfortunate households were subjected:

"Clubs composed of twenty or thirty men, with banners bearing ridiculous titles, and transported in feed wagons, drays or trucks of all sizes, and rigged out in every style of embellishments, also paraded in the throng of the streets. These parties, organized for the purpose of making 'calls' on a grand scale, were very numerous, and scoured the city about in every direction, to the horror of a majority of the ladies, who probably concluded from such sad experience that there could really be too much of a good thing in the way of New Year calls. Undaunted, however, by the frowns from their fair faces and hints from sharp tongues, these locust clouds swept through the city, clearing tables of everything edible, evaporating all the liquors and smoking all the cigars with insatiable appetites, leaving for the gay youths who traveled in pairs nothing but empty decanters, gaunt frames of well picked fowls, and the unfaded frowns of the fair ones.

These clubs were in the main composed of workmen in the same shop, who, gathering all their young friends together, made up a party, formed a club under some queer designation, and, procuring a couple of trucks, after decorating them with banners and transparencies bearing appropriate mottoes, started off on a grand foreign tour among their acquaintances. One of these parties, numbering full forty men, and bearing the appropriate title of "The Dead Beat Club," called at several aristocratic mansions—the residences of the dead beats aforesaid—and to the horror of the ladies who did the honors, cleared the tables before the day was half spent. Devastation followed in their track during the day, and they have the credit, with similar organizations, of having created a new sensation for the new year time.

Many of the up-town residences were closed, however, and their occupants received no calls, accepting the cards of visitors deposited in baskets hung on the bell-knobs, in lieu of personal congratulations. At these places the "dead-beats" and other clubs contributed pennies and a few stamps instead of cards, by way of sarcasm on an imagined parsimony. There were those, however, who were sufficiently fortunate in escaping the attention of the locusts, and among those there was a majority passed a day of genuine pleasure and polite festivity with their intimate friends; but the reprehensible practice of indiscriminate calling on the part of utter strangers was carried, in many cases, too far for the satisfaction of the parties honored by the visits, or for the good name of the holiday."

MINES IN MONTANA.—The Helena (Montana) *Herald* of January 31st, referring to the yield of the Whitlach Union mine, says:

"Last week, after another seven days run, the Hendrie mill, running eighteen stamps and crushing 140 tons of second class rock, cleaned up the very handsome sum of $4,827 90, and the retort, as handed over to Sanders by Dow, foreman of the Hendrie mill, was the cleanest and prettiest gold that we have yet seen in any quantity. The indomitable Little Giant mill of Judge Turnley's, running ten stamps and crushing about 100 tons of ore, cleaned up $6,323 60, also clean and fine gold—making the wholesome sum of $11,151. Such a source of unvarying and inexhaustible wealth may change once a year regularly for half a century, perhaps, and insure to each company or individual owner a colossal fortune, if machinery commensurate with the great richness of the ore were to be (as it certainly must) employed in the premises. Whitlach's interest in this famous lode is recorded here as worth fully one million dollars.

The *Herald* also says it has received a reliable communication from Bear City—a mining camp on the Hell Gate river, some forty miles below Deer Lodge and about 100 miles from Helena—announcing the fact of a discovery of a good quality of stone coal in that vicinity; that large quantities have been taken out, and blacksmiths in all that part of the Territory have tried it and testify to its excellence, and parties owning the mine propose to load a train, on the opening of Spring, for Helena, in case they get orders or encouragement from parties there desiring the article. The *Herald* thinks if stone coal can be delivered in Helena at $50 per ton it would become a profitable substitute in many cases for wood and charcoal.

THE SECRETARY OF WAR.—During the late debate in the Senate, several days ago, on the bill to regulate the tenure of office, Senator Howe, of Wisconsin, in an incidental allusion to the Secretary of War, said:

"I have, I avow here, a very high opinion of the public services of the Secretary of War. I should regard it a public calamity to have him removed at the present juncture. I should think the Congress of the United States assumed a grave responsibility if, knowing that there was a probability of his being removed, they allowed it to be done when they could prevent it; and I say this, not having been, as the Senator from Pennsylvania says has been the case with him, on intimate terms with the Secretary of War. I have occupied no confidential relation whatever with him. I have judged of him as from a distance—judged of his public acts, and put upon them perhaps an exalted, certainly a very high estimate, as I have no doubt every Senator on this floor has done."

THE POWER OF A GROWING TREE.—Walton Hall had at one time his own corn mill, and when that inconvenient necessity no longer existed, the mill-stone was laid by in an orchard and forgotten. The diameter of this circular stone was 5½ feet, while its depth averaged 7 inches throughout; its central hole had a diameter of 11 inches. By mere accident some bird or squirrel had dropped the fruit of the filbert tree through this hole on to the earth, and in 1812 the seedling was seen rising up through that unwonted channel. As its trunk gradually grew through this aperture and increased, its power to raise the ponderous mass of stone was speculated upon by many. Would the filbert die in the attempt? Would it burst the mill-stone? Or would it lift it? In the end, the little filbert tree lifted the mill-stone, and in 1863 wore it like a crinoline about its trunk, and Mr. Waterton used to sit upon it under the branching shade.—*English Paper.*

THE "HEROES OF NEW ORLEANS."—At the recent celebration in New Orleans of Gen. Jackson's cotton bag skirmish, it was ascertained that 7 of Toledano's rifle company are still living, 2 of the foot dragoons, and 5 of the chasseurs, being 14 out of the original 576 who composed Planche's Battalion on the morning of the 8th of January, 1815; of Captain Ogden's cavalry company, then 40 strong, 2 only are remaining; of Beale's riflemen, 64 strong, one alone now survives, his last comrade, A. Gordon, of Mobile, having died within the month. The last of the Louisiana Blues, Gen. H. W. Palmer, went down in the *Evening Star.*

CONSEQUENCE OF A LONG COURTSHIP.—"John, how does it happen that you, who tried so hard for your wife through a long and hopeless courtship of four years, now that you have won the prize, seem to care so little about her?" "Why, sir, I'll tell you. I've heard of a man who wanted to jump over a stone-wall. He took a good start, and ran a mile, and when he got up to the wall he was so tired that he had to lie down and go to sleep by the side of it. Now I loved my wife so hard and so long before I could get her, that I found my love had all run out when I had her fast."

CONSEQUENCES OF BEING CROSSED.—On Thursday evening, the 17th ult., there was to have been a brilliant wedding at Trinity Church, in New Orleans. The bride came; but after waiting an hour it was found that the bridegroom had decamped with a diamond cross worth $2,500, which he had borrowed of his bride. Being afterwards confronted with his victim, convicted on her evidence and put in prison, Keegan tried to hang himself with his handkerchief, declaring that he did not wish to live any longer.

Mr. Reid, a member of the Missouri Senate, in nominating General Blair for United States Senator, against Hon. C. D. Drake, eloquently recounted his martial career, and sat down; when Senator Evans, rising, begged leave to add, "But surrendered to the rebels at last." By this truth the eloquence was "knocked into pi," and a general mutiny of the "risibles" of grave Senators was with difficulty suppressed.

GOT TO PAY.—When President Johnson swung around the circle into Harrisburg (Pa.) last fall, the Democratic city Government gave him a grand reception at a cost of $300. The Courts have decided that the city is not responsible, and the Democratic members who voted the affair will now have to pay for it.

Some of the boys at Russian public schools at Moscow, Petersburg, Kiew, and Kasan, have sent a warm letter of thanks to Count Bismarck for having so greatly facilitated the study of the most difficult part of European geography, namely—the political geography of Germany.

THE OPERA HOUSE PRIZE.—A. H. Lee, of Prairie du Rocher, Illinois, drew the ticket which won the Chicago Opera House, valued at $600,000. He is a miller—his brand of flour standing well in the market—and his income is about $15,000 a year. He offered the opera house to Mr. Crosby, its original owner, for $200,000, which offer was at once accepted and the money paid. His reasons for selling at this low price, as stated by himself, are:

"Feeling that the Opera House should properly belong to Mr. Crosby, I made him the offer to sell it to him for $200,000, and the offer was accepted in a spirit which was most gratifying, and the money promptly paid to me."

One of the papers says:

"The reason for his selling the Opera House to Mr. Crosby at the low sum he did, were stated by himself as follows: He had made Prairie du Rocher his home, and he wished to live and die there. As soon as he knew of his good fortune he determined to sell the Opera House, and that Mr. Crosby should have the first opportunity of buying it. If Mr. Crosby was able to buy it he would put a reasonable low price upon it. The income he already had was more than he needed, and he had always had a sort of millionaire feeling. He had a sympathy for Mr. Crosby, and felt that the Opera House should not only be owned by a resident of Chicago, but that one should be Mr. Crosby. After arriving here he found that Mr. Crosby could, without embarrassment, pay him $200,000, cash, for the Opera House; that he could, and would if necessary, pay him more, but that he could not do it at once, and that it would embarrass him if he did. After a good deal of reflection, Mr. Lee, of his own free will and accord, offered it to Mr. Crosby for $200,000, cash. To use his own words: "I am as rich, anyway, as I care about being, and $200,000 more is enough." It is, of course, gratifying to the inhabitants of Chicago, that the Opera House is owned by one of their number, and there are few, if any, more worthy of it than he who ruined his fortune by building it.

Mr. Lee, it would seem, has acted nobly and generously in the matter, not only to Mr. Crosby, but to the inhabitants of Chicago in general. There is no doubt now but that the Opera House will continue to serve the purpose for which it was erected.

GIFT ENTERPRISE.—There seems to be quite a rage for these affairs at the East, just now. The Utica (New York) *Herald* announces the following list of premiums to be given away by Griswold, the "Fat Contributor," at his lecture before the Mechanics' Association in that city: The Lunatic Asylum; the post house (one of the postest house ash never vos); one bone boiling establishment; a light of glass; light in the head; one corner lot on the Mohawk bridge; tickets to the skating park; one silver-plated trotting-horse; one dozen bottles "essence of old Virginia;" one potter's field; 300 burial permits; one bottle balm of a thousand barrels of flour; four magnificent dwellings on Post street, one box cigars; one box at the theater; one box side of the head; double set silver-plated cottage furniture; one pair matched saw horses; one pair of chickens on foot; one pair of chickens in the shell; ten bushels of corn in the ear; one bushel of corn in the juice; four quarts of "corn" in the system; one grand eight octave sewing machine; one term at the Medical College; one term at Hamilton College; one [will] term at the Penitentiary; one case of babies' shoes; one case of cholera; one "case of conscience;" one large center table; one small multiplication table; six dozen post holes; one waterfall on wheels; one suit of clothes; one suit before a justice; one pair of (bureau) drawers; one traveling bag; one bag that never traveled; one brick melodeon, silver plated, inlaid with a house and lot [of children]; six months' tuition in the asylum for inebriates [a finished drunkard warranted]; one set of ivory handled real estate; one annual ticket to the meteoric shower; one beautiful, ivory handled, silver-plated, pearl inlaid, elegantly carved door mat; half a string of billiards at Griffins; one trip on the ice on the horse-cars; one day's railroad transportation; transportation for life; one box dog; collars [paper];" a "horn," tendered by Dan Rice's cow.

ALMOST A FATAL JOKE.—The Evansville *Courier* has the following:

Almost a fatal joke was perpetrated in the upper part of the city a few nights ago on two girls. They had gone out to a neighboring grocery to make some purchases. In the meantime a boy, up to fun, and knowing their fear of ghosts, stationed himself behind a corner, covered with a sheet. As the girls came along, he jumped from his hiding place, and one of the girls fell to the pavement apparently lifeless, from fear, and did not recover for several hours. The other ran into the house, and for hours raved like a maniac, and would let no one approach her. Medical aid was summoned and restoratives applied. They had recovered yesterday morning, but the joke came near being a fatal one. We record this case as a warning to others who may attempt similar jokes."

AMUSING INCIDENT OF THE STORM.—This was one of the funny incidents of the storm at Boston as told by the *Journal*:

Two suburban gentlemen who were obliged to remain in town on Thursday night, were sought by their wives who scouted the idea of being stopped by the snow, and set out in company in a sleigh driven by an Irish man servant. They got too far to return and found themselves snow bound, but found shelter in a house by the road-side. The husbands, meanwhile, had started from Boston together in a sleigh, and after many mishaps were compelled to halt for the night in a house the next door to that in which their better halves were quartered. Neither party discovered the proximity of the other, however, until the next morning.

There are about 500 cigar makers at work in San Francisco, who average 4,200 cigars per month to each man. Out of the 500 engaged at the business, there are not more than fifty white men; the rest are Chinese.

FINANCE AND COMMERCE

WEEKLY REVIEW.

PORTLAND, FRIDAY, 2 P. M.
March 8, 1867.

A dispatch from San Francisco, yesterday, says, Gold closed in New York at 136. The market here yesterday, was very fluctuating, dropping as low as 132⅝. Sterling was quoted at 108@108½. Legal tenders were moderately active at 74 buying, and 74½ selling. Coin drafts on the Atlantic cities are quoted at 2@2½ per cent.; currency drafts, 25 per cent. Premium on gold, telegraphic transfers, 2½ per cent. Exchange, 4⅝. Gold bars, 810; silver bars, 1½ per cent.

As during last week, the jobbing trade is dull, most articles being quoted nominally. Best varieties of winter apples are active at improved rates. We quote Isthmus butter 2½c lower. Candles—Kelly's 1c@2c lower. California dried peaches are 2c@3c lower. Flour—Country brands have declined 25c. Sugar—Sandwich Island, decline of 1c. Syrup—San Francisco and Pacific Refinery firm at quotations; Bay Refinery has fallen off 2½c.

Large stocks of groceries were received per steamer *Ajax*. As upon her last trip, the greater part of her freight is for points up the Columbia river. The *Idaho* is expected this evening with a full freight for Portland and the Willamette valley.

The receipts of produce for the week ending Thursday, 7th, have been as follows: Flour, 4,870 qr sks.; apples, 3,249 boxes; barley, 163 sks.; mill feed, 470 sks.; bacon, 179 gunnies; seeds, 7 sks.; oats, 493 sks.; lard, 43 cases; dried fruit, 44 sks.; eggs, 63 boxes; wheat, 350 sks.; tallow, 14 hlf bbls.; bran, 25 sks.; miscellaneous packages produce, 189.

In relation to shipments of flour to the East, the San Francisco *Mercantile Gazette* of the 27th ult., has the following:

The demand for bakers' extra flour for shipment by the steamer, which will carry nearly 10,000 barrels, has kept millers on the lookout for fair samples of Wheat, for which they have been willing to pay $1 65@1 67½ per 100 lbs. The demand for export to Europe in the meantime has not abated, but is much restricted for want of ships to carry off all that is ready for the market. Every vessel that arrives is promptly loaded and started on its voyage as rapidly as possible, but the supply of vessels bears no proportion to the demand. Oregon, which has also been blessed with a super-abundance of breadstuffs, having to find an outlet for her surplus through our port, retards our shippers to the extent of the quantity she sends here, which will foot up several thousand barrels thus far with more to come. If the large fleet of vessels now over due should make its appearance, it would relieve shippers and farmers of considerable anxiety which they labor under at present, to know what to do with this heavy supply of Wheat and Flour pouring into the market without any adequate outlet. If the Panama steamers could carry about ten times as much as they do they would enable us to compete with the Western States, as we learn by telegraph that some of our Flour shipped via the Isthmus has reached New York within forty days; a less time than it at present requires to ship it from Chicago. An order has been received by a firm in this city, for 500 barrels of Flour to be sent by steamer to Portland, Maine. The fame of our Flour is spreading through all the New England and Middle States. If we could send it there at a reasonable cost and in reasonable time, we should never be at a loss for a market.

The same paper noticing the recent estimates of wheat surplus of California, made by the *Alta*, *Bulletin*, and *Times*, says:

There appears to be considerable discrepancy among the reporters for the daily papers as to the surplus of wheat still remaining in the State. One of the parties has stated that he did not think we have more than 525,000 sacks; another took him to task, and attempts to show, by figures which we are inclined to consider tolerably correct, as far as they go, that we have 1,170,000 sacks at half a dozen central points in the grain growing districts around the Bay, and in the Sacramento and San Joaquin valleys—while a third publishes his opinion that the stock remaining only amounts to 525,823 sacks. With all due deference to the gentlemen who have published their opinions on the subject, we would venture to state, that if their calculations are not erroneous, we ought to ship no more wheat or flour out of the State. The best informed dealers in flour estimate that the home consumption of that article reaches 70,000 bbls per month—a quantity equal to 21,000,000 lbs of wheat, which, according to their figures, would only leave us from three to five months' supply. As we cannot expect to gather in the new crop till July, if their estimates be correct, we have none to spare. But it seems to us they have failed to take into their calculations the fact that every county in the State produces more or less wheat, and that every important town in the interior has its local grist mill which supplies the surrounding district, without calling upon San Francisco. There is a mill in Nevada City, which for the past ten years has been turning out an average of 100 bbls good flour daily, from wheat chiefly grown in that section of the State; while the mill at Knight's Ferry has a reputation second to none in the State, and turns out much flour. It is quite safe to estimate the stock of wheat held by farmers and millers in the interior counties, not considered by the reporters in making up their statements, at 2,000,000 bushels.

The latest quotations we have of Oregon flour in the San Francisco market are $4,62½ for superfine, and $5,37½ for extra. The markets here and below are overstocked with eggs.

DR. HENLEY'S
Fountain of Life!

THE

GREAT BLOOD PURIFIER!

IN EVERY PROGRESSIVE SCIENCE PERIODS ARRIVE when a new direction is imparted to its course. These epochs proceed from discovery of new facts shedding a light which changes the whole aspect of the science. The present is an epoch of this kind, and this Great Remedy, now offered to the public, in connection with the theory on which it is based, is destined to effect an entire revolution in the treatment of the diseases of

SCROFULA AND KING'S EVIL!

by eradicating the disease entirely from the blood. The FOUNTAIN OF LIFE is composed entirely of vegetable extracts; it contains no Mercury or other mineral substance.

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything, from the days of Æsculapius down to the present time, in the arcana of Medical Science, which can vie with or excel the intrinsic properties of this Great Blood Purifier. Its value has been tested with the happiest effect in the most obstinate cases of Scrofula, that baffled the skill of the most eminent physicians in the world. No matter what form the dreadful disease of SCROFULA and KING'S EVIL may have assumed, it can in no way be more safely and certainly arrested in its progress than by HENLEY'S GREAT BLOOD PURIFIER. Thousands have been swept into their graves, who had they made a timely use of the FOUNTAIN OF LIFE, might now be enjoying the blessings of life and health. It requires an article of real merit and intrinsic value to sustain itself. During the storm ordeal of public experiment the FOUNTAIN OF LIFE has stood the test trial, and not been found wanting.

☞ Dr. HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the world, and eradicate the disease entirely from the system, or no charge made—provided they will secure him his pay when they are cured.

FOR REFERENCE:

I would refer you to L. L. Peck, of Portland, Oregon, and numbers of others, as to what a miraculous effect it had in a short time, in cases that had baffled the skill of physicians for years.

DR. WM. HENLEY,
fe16d4ptf Portland, Oregon.

DR. G. W. BROWN

HAS located in Portland, in CARTER'S NEW BUILDING, for the permanent cure of all private diseases, such as syphilis, gonorrhea, gleet, strictures &c. He also calls the attention of those suffering with

DISEASES OF THE EYES

to call at his office and be at once restored. Surgical operations SKILFULLY performed on the EYES for film, cataract, strabismus or cross eyes.

Below are some of the many testimonials:

This is to certify that I, John R. Jodwan, was blind for over nine years, and I tried all means of a cure, and and many doctors, and all of no effect, and I spent all the means I had. Finally, I had to become a county charge, and when I was taken to Dr. G. W. Brown, and stated my case to him, and misfortune, he at once commenced to treat my eyes, and now I am well, and commend all those that are suffering with diseases of the eyes to call on Dr. G. W. Brown. The reason why I do this is to let suffering humanity know where they can be cured.

J. R. JODWAN.

STATE OF OREGON, Marion County, ss.—Subscribed and sworn to before me this 22d day of November, 1866.

SETH R. HAMMER, Notary Public.

SATURDAY, Feb. 10, 1866.

This is to certify that my daughter was almost blind for over seven years, and was doctored by other physicians without obtaining any relief, when finally I took her to Dr. G. W. Brown, who examined her case, and at once began to give her treatment, and her sight has been entirely restored. I do this to let those who are suffering with diseases of the eyes know, where they can obtain a cure. It has been three years since her eyes were cured, and they are yet sound.

THOMAS LIVINGSTON,
Deer Creek Precinct, Douglas county, Oregon.
SALEM, July 21, 1866.

This is to certify that I was blind for over four months, and almost blind for one year and a half; I tried several eye doctors but received no benefit; I had almost given my case up as hopeless; when fortunately I heard of Dr. G. W. Brown, now of Salem. I was induced to try him; he performed a surgical operation on my eyes, and gave me treatment. I soon began to recover, and in a short time I was perfectly cured. I do this in justice to one who rescued me from a fate worse than death, and also for the benefit of those who are laboring under similar afflictions that they may know where they can get relief. It is now about eight months since my eyes were cured and they still remain good. I can see to read the finest print without difficulty, and my eyes can bear the strongest light without pain.

L. JAY S. TURNEY,

HAVING LEASED THE ABOVE NAMED HOTEL, is prepared to accommodate the traveling public, and ONE HUNDRED REGULAR BOARDERS, in as good style as any House on the Coast. He has determined to make the "Bennett" as good as the best and *better* than any public house in Salem. He will soon complete some important improvements, which will add greatly to its appearance and comfort, and intends to merit and hopes to receive his share of patronage.

He has secured the services of "Charley" (known to be the best cook in Salem, and one of the best in the whole country) and other competent persons to manage the culinary department, and is resolved to set as good a table as can be found anywhere—not in clap-trap, pomp and show, flummery and fine furniture, but in an abundant supply of the very best the market affords.

His Bar-room will be kept warmed and lighted, and well supplied with newspapers, periodicals and other suitable reading matter, and kept in a manner which will make it an agreeable resort.

In short, he intends making an effort to please all who stop at the BENNETT HOUSE. And he most respectfully requests his friends everywhere to give the old and well-known stand at least one more trial before concluding they can do as well elsewhere, and promises if they are not well treated, and properly cared for, *and at reasonable figures*, it will not be the fault of the public's most obedient and most humble servant,
